To Whom It May Concern:

It is my pleasure to recommend Constantine Commercial Construction to you. I have worked with this well qualified firm on numerous projects over the past five years. Their attention to detail, schedule, and cost has allowed all of these projects to come in within the construction budget and schedule.

The scope and size of the projects I have completed with Constantine have ranged in size from 3,000sf to 60,000sf and have all required extensive coordination of MEP design and architectural design; I have found that no matter the size of the project the appropriate attention and man power has been provided. Constantine has been able to meet every demand quickly and responsibly.

In addition to the work provided by Constantine I have found that they have an established relationship with the top sub-contractors in the area that not only deliver the same quality of work but will adhere to the aggressive construction schedule and proposed budgets prepared by Constantine. Change orders are very rare!

Hord Coplan Macht, wholeheartedly recommends Constantine Commercial Construction to you. They are contractors of the first rank.

Sincerely,

Tim Barnhill, AIA
